

MonoBehaviour

```
classDiagram
    class MonoBehaviour
    class NavAgentTestAutoSetMouseDestination
    NavAgentTestAutoSetMouseDestination --|> MonoBehaviour
```

The diagram shows a class hierarchy. At the top is a box for 'MonoBehaviour' with two empty slots below the name. Below it is a box for 'NavAgentTestAutoSetMouseDestination' with two slots below the name. A blue arrow with an open triangle head points from the top of the 'NavAgentTestAutoSetMouseDestination' box to the bottom of the 'MonoBehaviour' box, indicating inheritance.
